Back-End:	Node.js , REST APIs , Firebase , Push Notifications
Integration:	PayPal , Razorpay , Stripe , APIs
Cloud & Platform:	Google Cloud Platform (GCP Consloe) , Firebase , PlayStore Handling
Tools:	Git , GitHub , Postman , Figma , Canva , Claude , Codex
Soft-Skills:	Strategic Thinking , Problem Solving , Leadership
Languages:	C++ , Java , Dart

WORK EXPERIENCE

NEXOTECH SOLUTIONS | 2024 - 2025

- Worked on multiple projects and successfully delivered them within tight deadlines.
- Built and maintained high-quality mobile applications using **Flutter** and **Dart**.
- Integrated **REST APIs**, **WebSocket**, and third-party services to create real-time and dynamic features.
- Implemented secure payment systems using **Razorpay**.
- Used **Firebase** for authentication, database management, **Push Notifications**, and analytics.
- Added **Google Maps** for location tracking and navigation features.
- Created smooth and attractive user interfaces using **Flutter animations** and custom widgets.
- Integrated **Audio** and **Video players** for better user experience.
- Used **Provider** for efficient state management and clean app architecture.
- Used AI tools like **Claude** and **Codex** to improve development speed and code quality.

LEPTON PLUS COMMUNICATIONS | 2022 - 2024

- Led the development and maintenance of mobile and web applications using Flutter.
- Handled **Play Store publishing**, app updates, and version management.
- Worked with **Firebase Realtime Database** for live data synchronization and real-time updates.
- Managed **Google Cloud Platform (GCP)** services and application infrastructure.
- Handled end-to-end application development, testing, and deployment.
- Integrated **IoT** device data using Firebase, including RFID cards and machine data communication.
- Developed features for **Excel file handling** and **PDF management** using Flutter.
- Integrated **Jitsi Meet** for video conferencing within applications.
- Implemented **video players** and media features for enhanced user experience.
- Built **AI-powered chat** support for user doubt clearing, similar to ChatGPT, using Flutter.
- Led and guided the development team, ensuring code quality and timely delivery.
- Used **GetX** and **Bloc** for advanced state management.
- Developed Flutter-based **websites**, **Android apps**, and **iOS applications**.
- Managed **iOS** builds and app submission processes.

BROTOTYPE | 2022

- Completed a 12-month internship focused on real-world IT office environment training.
- Trained in a **self-learning**, non-teaching model with strong mentorship and peer support.
- Developed strong skills in **focus, Discipline, Problem-solving, and Independent learning.**
- Worked on multiple self-driven projects to strengthen technical and practical knowledge.
- Built applications such as video players, Netflix app using APIs, Student Management systems, and e-commerce platforms using Firebase.
- Gained hands-on experience in full project development from planning to deployment.
- This internship played a key role in shaping my professional mindset and career growth

EDUCATION

- BCA - Bachelor of Computer Applications | IGNOU – Trivandrum
- Diploma HSE - Health, Safety, and Environment | Changanassery
- Higher Secondary School – Science | Kerala university – Alappuzha
